NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Business description

On June 30, 2016, Blink Couture, Inc. entered into a merger agreement with its wholly owned subsidiary, Toga Limited (the “Company”), a Delaware corporation with no material operations.

Blink Couture, Inc. was originally incorporated as Fashionfreakz International Inc. on October 23, 2003, under the laws of the State of Delaware. On December 2, 2005, Fashionfreakz International Inc. changed its name to Blink Couture Inc. Until March 4, 2008, the Company’s principal business was the online retail marketing of trendy clothing and accessories produced by independent designers. On March 4, 2008, the Company discontinued its prior business and changed its business plan. The Company’s business plan now consists of exploring potential targets for a business combination through the purchase of assets, share purchase or exchange, merger or similar type of transaction. The Company has nominal operations and nominal assets, and is considered a Shell company as defined by Rule 12b-2 of the Exchange Act. On June 13, 2016, a change of control of the Company occurred. On that date, the current President and Chief Executive Officer purchased a total of 13,869,150 of the issued and outstanding shares of the Company (such number of shares represents the shares purchased after giving effect to the forward split conducted in June 2017, as described in the immediate subsequent paragraph).

On June 10, 2017, the Board of Directors unanimously adopted resolutions authorizing the increase of the Company’s authorized number of shares of common stock from one hundred million (100,000,000) shares to ten billion (10,000,000,000) shares and increased the number of the Company’s total issued and outstanding shares of common stock by conducting a forward split at the rate of fifty (50) shares for every one (1) (50:1) share currently issued and outstanding (the “Forward Split”). The Forward Split became effective in the market on September 11, 2017 following approval by the FINRA. All share amounts in this filing have been adjusted retroactively.

The Company incorporated a wholly-owned subsidiary, TOGL Technologies SDN. BHD. (“TOGL”) in Malaysia on September 26, 2017.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). Accordingly, these condensed financial statements do not include all of the information and footnotes required for audited annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary to make the financial statements not misleading have been included. The balance sheet at July 31, 2017, has been derived from the Company’s audited financial statements as of that date.

The unaudited financial statements included herein should be read in conjunction with the audited financial statements and the notes thereto that are included in the Company’s Annual Report on Form 10-K for the year ended July 31, 2017, that was filed with the SEC on November 14, 2017. The results of operations for the three months ended October 31, 2017, are not necessarily indicative of the results to be expected for the full year.

Basis of Consolidation

These financial statements include the accounts of the Company and the wholly-owned subsidiary, TOGL Technologies SDN. BHD. All material intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Some of these judgments can be subjective and complex, and, consequently, actual results may differ from these estimates.

[Table of Contents](#)

Tax benefits from an uncertain tax position are only recognized if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate resolution. Interest and penalties related to unrecognized tax benefits are recorded as incurred as a component of income tax expense. The Company has not recognized any tax benefits from uncertain tax positions for any of the reporting periods presented.

Foreign Currency Translations

The Company's functional and reporting currency is the U.S. dollar. Our subsidiary's functional currency is the Malaysian Ringgit. All transactions initiated in Malaysian Ringgit are translated into U.S. dollars in accordance with ASC 830-30, "*Translation of Financial Statements*," as follows:

- (i) Monetary assets and liabilities at the rate of exchange in effect at the balance sheet date.
- (ii) Equity at historical rates.
- (iii) Revenue and expense items at the average rate of exchange prevailing during the period.

Adjustments arising from such translations are deferred until realization and are included as a separate component of stockholders' equity as a component of comprehensive income or loss. Therefore, translation adjustments are not included in determining net income (loss) but reported as other comprehensive income.

NOTE 3. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company, which has not generated any revenues since inception, has incurred net losses, has nominal assets and a stockholders' deficit. These conditions, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company is dependent on advances from its principal shareholders or other affiliated parties for continued funding. There are no commitments or guarantees from any third party to provide such funding nor is there any guarantee that the Company will be able to access the funding it requires to continue its operations.

NOTE 4. RELATED PARTY TRANSACTIONS

During the three months ended October 31, 2017, the Company has leased office space from Regus Standard Chartered in the Jakarta Menara Standard building in Kuala Lumpur, Malaysia. The Company also entered into a one year lease with Regus for a virtual office in Wilmington, Delaware.

On September 30, 2017, the Company issued a note payable in the amount of \$152,973 to Toga Capital Sdn. Bhd. ("Toga Capital"), which is owned by an officer and director of the Company, for repayment of amounts due to related parties of \$152,973. The note is a 2% interest bearing promissory note that is payable on September 30, 2018.

The Company has outstanding notes payable to related parties of \$177,099 and \$24,126 as of October 31, 2017 and July 31, 2017, respectively.

The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

Forward-Looking Statements

This quarterly report on Form 10-Q (the "Report"), including "Management's Discussion and Analysis and Results of Operations" in Item 2 contains forward-looking statements regarding future events and the future results of Toga Limited (the "Company") that are based on management's current expectations, estimates, projections and assumptions about the Company's business. Words such as "expects," "anticipates," "intends," "plans," "believes," "sees," "estimates," and variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to, those discussed in "Management's Discussion and Analysis and Results of Operations" in Item 2 and elsewhere in this Report as those discussed from time to time in the Company's other Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions. Description of Business

The Company was incorporated in the State of Delaware on October 23, 2003, under the name Fashionfreakz International Inc. On December 2, 2005, the Company changed its name to Blink Couture, Inc. Until March 4, 2008, the Company's principal business was the online retail marketing of trendy clothing and accessories produced by independent designers. On March 4, 2008, the Company discontinued its prior business and changed its business plan. The Company's business plan now consists of exploring potential targets for a business combination through the purchase of assets, share purchase or exchange, merger or similar type of transaction.

The Company is currently considered to be a "blank check" company. The SEC defines those companies as "any development stage company that is issuing a penny stock, within the meaning of Section 3(a)(51) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and that has no specific business plan or purpose, or has indicated that its business plan is to merge with an unidentified company or companies." Many states have enacted statutes, rules and regulations limiting the sale of securities of "blank check" companies in their respective jurisdictions. The Company is a "shell company," defined in Rule 12b-2 under the Exchange Act as a company with no or nominal assets (other than cash) and no or nominal operations.

On June 30, 2016, Blink Couture, Inc., (the "Registrant"), a Delaware corporation entered into an Agreement and Plan of Merger (the "Merger Agreement") pursuant to which the Company merged with its wholly owned subsidiary, Toga Limited, a Delaware corporation with no material operations ("Merger Sub" and such merger transaction, the "Merger"). Upon the consummation of the Merger, the separate existence of Merger Sub ceased and shareholders of the Company became shareholders of the surviving company named "Toga Limited."

As permitted by the Delaware General Corporation Law Title 8, Section 251(f), the sole purpose of the Merger was to effect a change of the Company's name from Blink Couture, Inc., to Toga Limited. Upon the filing of the Certificate of Merger (the "Certificate of Merger") with the Secretary of State of Delaware on July 22, 2016 to effect the Merger, the Company's Articles of Incorporation were deemed amended to reflect the change in the Company's corporate name.

The name change to Toga Limited became effective in the market on December 16, 2016, following approval by the Financial Industry Regulatory Authority, Inc. (FINRA), and in conjunction with the name change, the trading symbol for the Company's common stock was changed. Its shares are now listed for quotation on OTC Markets under the symbol "TOGL."

[Table of Contents](#)

The Company incorporated a wholly-owned subsidiary, TOGL Technologies SDN. BHD. (“TOGL”) in Malaysia on September 26, 2017.

Results of Operations

The Company has not conducted any active operations since March 4, 2008, except for its efforts to locate suitable acquisition candidates. No revenue has been generated by the Company since inception in October 2003. It is unlikely the Company will have any revenues unless it is able to effect an acquisition or merger with an operating company. There can be no assurance that we will be able to consummate an acquisition of an operating company. It is management’s assertion that these circumstances may hinder the Company’s ability to continue as a going concern. The Company’s plan of operation for the next twelve months shall be to continue its efforts to locate suitable acquisition candidates.

Three-Month Period Ended October 31, 2017 Compared to 2016.

Our net loss for the three-month period ended October 31, 2017 was \$55,872 compared to a net loss of \$300 for the three-month period ended October 31, 2016. During the three-month period ended October 31, 2017 and October 31, 2016 we have not generated any revenue.

During the three-month period ended October 31, 2017, we incurred general administrative expenses of \$55,617 compared to \$300 incurred for the three-month period ended October 31, 2016. General and administrative fee expenses incurred during the three-month periods ended October 31, 2017 and October 31, 2016 were generally related to corporate overhead, financial and administrative contracted services and interest expense. The increase in general and administrative expenses is primarily due to an increase in professional fees during the three-month period ended October 31, 2017.

The increase in professional fees, accounting and legal fees, between the comparable periods is primarily attributable to fees paid in connection with the preparation of the Company’s financial statements and the audit of the Company’s financial statements incurred during the quarter period ended October 31, 2017, which were limited during the quarter ended October 31, 2016, as a result of the Company’s suspension of filing quarterly and annual reports with the SEC in the latter half of the fiscal year ended July 31, 2014.

Plan of Operation

The Company currently does not engage in any business activities that provide positive cash flow. During the next twelve months, we anticipate incurring costs related to:

- i. the preparation and filing of the Company’s financial statements and Exchange Act reports;
- ii. investigating, analyzing, and consummating potential acquisition or merger opportunities; and
- iii. other ongoing general and administrative type costs.

We believe we will be able to meet these costs through additional amounts, as necessary, to be loaned to or invested in us by our stockholders, management and/or other investors.

The Company may consider acquiring another business, which has recently commenced operations, is a developing-stage company in need of additional funds for expansion into new products or markets, is seeking to develop a new product or service, or is an established business which may be experiencing financial or operating difficulties and is in need of additional capital. In the alternative, any such business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital but which desires to establish a public trading market for its shares while avoiding, among other things, the time delays, significant expense, and loss of voting control which may occur in a public offering.

Any target business that is selected may be a financially unstable company or an entity in its early stages of development or growth, including entities without established records of sales or earnings. In that event, we will be subject to numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. In addition, we may effect a business combination with an entity in an industry characterized by a high level of risk, and, although our management will endeavor to evaluate the risks inherent in a particular target business, there can be no assurance that we will properly ascertain or assess all significant risks.

[Table of Contents](#)

The Company anticipates that the selection of a business combination will be complex and extremely risky. Because of general economic conditions, rapid technological advances being made in some industries and shortages of available capital, our management believes that there are numerous firms seeking even the limited additional capital which we will have and/or the perceived benefits of becoming a publicly traded corporation. Such perceived benefits of becoming a publicly traded corporation include, among other things, facilitating or improving the terms on which additional equity financing may be obtained, providing liquidity for the principals of and investors in a business, creating a means for providing incentive stock options or similar benefits to key employees, and offering greater flexibility in structuring acquisitions, joint ventures and the like through the issuance of stock. Potentially available business combinations may occur in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

Liquidity and Capital Resources

As of October 31, 2017, our total assets were \$142,672 and our total liabilities were \$187,004.

Stockholders' deficit decreased from a deficit of \$121,500 as of July 31, 2017 to \$44,332 as of October 31, 2017.

We had \$142,672 of cash as of October 31, 2017, and the Company had nominal assets to meet ongoing expenses or debts that may accumulate. Accumulated deficit was \$787,023 as of October 31, 2017 compared to accumulated deficit of \$731,151 as of July 31, 2017. As of October 31, 2017, we had negative working capital of \$44,332.

Cash Flow from Operating Activities

We have not generated positive cash flow from operating activities. For the three-month period ended October 31, 2017, net cash flows used in operating activities was \$1,656. Net cash flows used in operating activities was \$0 for the three-month period ended October 31, 2016.

Cash Flows from Financing Activities

We have financed our operations primarily from either advances and loans from related and third parties or the issuance of equity instruments. For the three-month period ended October 31, 2017, net cash provided by financing activities was \$144,574 from proceeds from the issuance of common stock and proceeds from related parties, compared to \$0 net cash from financing activities for the three-month period ended October 31, 2016.

We have no commitment for any capital expenditure and foresee none. However, we will incur routine fees and expenses incident to our reporting duties as a public company. We will continue to incur expenses in finding and investigating possible acquisitions and other fees and expenses in the event we make an acquisition or attempt but are unable to complete an acquisition. If we do not consummate a merger or other transaction with another business, our cash requirements for the next twelve months are relatively modest, principally legal expenses, accounting expenses, and other expenses relating to making filings required under the Exchange Act, which should not exceed \$50,000 in the fiscal year ending July 31, 2018. Any travel, lodging or other expenses which may arise related to finding, investigating and attempting to complete a combination with one or more potential acquisitions could also amount to thousands of dollars.

We will only be able to pay our future obligations and meet operating expenses by raising additional funds, acquiring a profitable company or otherwise generating positive cash flow. As a practical matter, we are unlikely to generate positive cash flow by any means other than acquiring a company with such cash flow. We believe that management, stockholders or affiliates will lend funds to us as needed for operations prior to completion of an acquisition. Management, stockholders and any such affiliates are not obligated to provide funds to us, however, and it is not certain they will always want or be financially able to do so. Our stockholders, management and/or affiliates who advance funds to us to cover operating expenses will expect to be reimbursed, either by us or by the company acquired, prior to or at the time of completing a combination.

There currently are no plans to sell additional securities to raise capital, although sales of securities may be necessary to obtain needed funds. Our current management has agreed to continue their services to us and to accrue sums owed them for services and expenses and expect payment reimbursement only.

[Table of Contents](#)

Should existing management or stockholders refuse to advance needed funds, however, we would be forced to turn to outside parties to either lend funds to us or buy our securities. There is no assurance whatsoever that we will be able to raise necessary funds, when needed, from outside sources. Such a lack of funds could result in severe consequences to us, including among others:

- failure to make timely filings with the SEC as required by the Exchange Act, which may also result in suspension of trading or quotation of our stock and could result in fines and penalties to us under the Exchange Act;
- curtailing or eliminating our ability to locate and perform suitable investigations of potential acquisitions; or
- inability to complete a desirable acquisition due to lack of funds to pay legal and accounting fees and acquisition-related expenses.

It is our intention to seek reimbursement from potential acquisition candidates for professional fees and travel, lodging and other due diligence expenses incurred by our management, in connection with our investigation, negotiation and consummation of a business combination with such acquisition candidates. There is no assurance that any potential candidate will agree to reimburse us for such costs.

Going Concern

Our independent auditors have added an explanatory paragraph to their audit issued in connection with the financial statements for the period ended July 31, 2017, relative to our ability to continue as a going concern. The Company, which has not generated any revenues, has incurred net losses, has nominal assets and a stockholders' deficit. These conditions, among others, raise substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company is dependent on advances from its principal shareholders or other affiliated parties for continued funding. There are no commitments or guarantees from any third party to provide such funding nor is there any guarantee that the Company will be able to access the funding it requires to continue its operations.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to an investor in our securities.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of October 31, 2017. Based on that evaluation, our management concluded that our disclosure controls and procedures were not effective as of such date to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Such officer also confirmed that there was no change in our internal control over financial reporting during the three-month period ended October 31, 2017, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the quarter ended October 31, 2017, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

This quarter report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this quarter report.
